To whom it may Concern.

I am writing this letter in support of the coaches and administrators of the Coast 2 Coast Soccer clinics. We at the Big Bear Valley Recreation and Park District located in the beautiful San Bernardino Mountains of Southern California have been collaborating with Coast 2 Coast for many years now and each year the program just gets better and better.

This year saw our largest enrolment of children looking to improve their skills and to get out and have fun in the sun while playing the great game of soccer. Coast 2 Coast easily achieve this objective through the dedication of the administrators (Nick, Chris and Robbie) who maintain a professionalism that allows the recruitment of a unique and fun loving group of coaches. They bring with them a wealth of knowledge in mini games and drills that utilize the skills of soccer, emphasizing enjoyment and participation while maintaining a safe and fun environment. The coaches also demonstrate exemplary behavior and are great ambassadors to their country and the Coast 2 Coast program. Every year parents of the children enrolled in the program call our office offering space in their homes so the coaches have a place to stay while doing the clinics. We always have more homes being offered than we have coaches.

I urge any organization looking to add a soccer coaching clinic to there program to look no further than Coast 2 Coast. You, your organization and the children of your community will not be disappointed.

Glenn Jacklin,
Recreation Superintendent
Big Bear Valley Recreation & Park District
