CITY OF SANTA MONICA COMMUNITY SERVICES

To whom it may concern, Coast 2 Coast is the gold standard for sports programs in our city. Coast 2 Coast has been a partner with the City of Santa Monica since June of 2009. They have not only exceeded our own very high expectations, but also those of our parents and participants.

They source the highest quality coaches for their programs and use a well-structured creative curriculum. The coaches use active engaging games that keep the children enjoying and learning at the same time.

They pay particular attention to evaluation and get feedback through on line surveys. Coast 2 Coast uses this feedback to help constantly shape their program so that they match the needs of the parents and participants.

The organization of their programs seems to start at the top with their administration. The management and office staffs are trained extremely well. They are always on time, meet all deadlines and are quick to respond to any questions.

I would certainly recommend Coast 2 Coast to any organization wishing to provide a fun organized and safe sports program. It is guaranteed that children will want to do their sessions again and again
